SONATE PATHETIQUE

Biographical Sketch—Ludwig Van Beethoven

Born at Bonn, Germany, December 16, 1770

Died in Vienna, March 26, 1827

Beethoven's early life was relatively dim, owing to the fact that his father, Johann, a man of dissipated habits, and a meagre income, was his sole inspiration and education. Not until he was nine, and until Johann had no more information to give, did Beethoven continue his study elsewhere. The lessons his father had given him on the piano were well learned, but now his musical gifts demanded more advanced attention. Christian Gottlob Neefe, organist of the court chapel, and an excellent clavierist, and pianist, was his first teacher. The main sources for his teaching were Karl Philipp Emanuel Bach's keyboard works, Johann Sebastian Bach's *Well-Tempered Clavier*, and some North and South German keyboard music of that period, plus various theory works by Sorge, Marpurg, Kirnberger, and again, Karl Philipp Emanuel Bach.

In 1792 Beethoven met Haydn, who was passing through Bonn on his way to England, and was invited to come to Vienna for study purposes. For almost two years he worked eagerly, grasping everything Haydn could offer. There is no doubt that Beethoven was greatly indebted to Haydn, despite rumors of jealousy on the latter's part, and despite Beethoven's own opinion of being taught too little, partly justified because of Haydn's age, and because Haydn was too busy with his own doings to give his pupil enough attention. Beethoven many times produced a great deal more than Haydn had time to look at. So when Haydn started on another journey to England in 1794, Beethoven found a more conscientious teacher, Johann Albrechtsberger, famous theorist and composer. He was a model of accuracy, consistency, and discipline, and Beethoven bore these traits as patiently as a novice, although by now he was twenty-four years old and the possessor of a substantial skill in composition. Albrechtsberger's instruction included the following subjects: strict and free counterpoint, imitation, fugue, three categories of double counterpoint, double fugue, three-fold counterpoint and fugue, and finally, canon.

In Vienna, as in Bonn, Beethoven again found enthusiastic admirers, and the force of his character as well as his music so impressed them that he was soon considered to be on equal level by many of the aristocracy; in fact, many carried their admiration to such a point that Beethoven's coarseness, ill-temper, and rude behavior were borne with patience and tranquillity. Among these newly-founded friends was Karl Lichnowsky, one of the very few mentioned in the *Heiligenstadter Testament*. In a letter of August 24, 1804, to Breitkopf and Hartel, Beethoven called him one of his most faithful friends and patrons.

About the time of Beethoven's twenty-eighth birthday he began to experience deafness. A continual humming and buzzing in the ears was especially distressing to him, and it was inconceivable that he should lose his sense of hearing. After a long period of worrying and despair, he finally reached a state of quiet resignation and self-control. Yet at no period of his life, until the very day of his death, did Beethoven give up the hope of being cured. However, chronic stomach and intestinal trouble, which Beethoven suffered from as early as his thirtieth year, formed the basis for the illness, cirrhosis of the liver, of which he eventually died.

FORM: The first movement consists of a ten-measure introduction marked *Grave*, and a section marked *Allegro di Molto e con brio*. The movement is in sonata form; the first theme beginning with measure 11 and ending with measure 19. Measures 19-27 are a repetition of the first

SONATE PATHETIQUE

theme. A transition (measures 27-50) then leads to the second theme, beginning in $e\flat$ minor, and ending in $E\flat$ major. A closing section (measures 89-121) and a coda (measures 121-132a) complete the exposition, and the section is repeated.

The development section, following a four-measure segment of the *Grave* begins with measure 137 and ends with measure 195 where the recapitulation begins. The second theme occurs, unusually enough, in f minor and not until sixteen measures later does the theme occur in the tonic key, c minor. A closing section and a coda exactly identical to those of the exposition follow, also in the key of c minor (measures 253-294). A four-measure *Grave* section, departing from the diminished seventh chords at measures 293-294 precede the final eleven measures of the *Allegro molto*.

The second movement is a rondo, unusual for second movements at the time Beethoven wrote this. This proves how interested Beethoven was in showing the new possibilities of this form. It may be notated:

A	B	A	C	A	Coda
(meas. 1-16)	(meas. 17-28)	(meas. 29-36)	(meas. 37-50)	(meas. 51-66)	(meas. 66-73)

The third movement which is self-explanatory by its heading, is also in rondo form. It may be notated as following:

A	transition	B-1	B-2	B-3	transition
(meas. 1-17)	(meas. 18-24)	(meas. 25-33)	(meas. 33-43)	(meas. 43-51)	(meas. 51-61)
A	C	transition	A-extension	B-1	B-2
(meas. 61-78)	(meas. 79-106)	(meas. 107-120)	(meas. 120-134)	(meas. 134-143)	(meas. 143-153)
B-3-extension	A-extension	Coda			
(meas. 153-170)	(meas. 171-182)	(meas. 182-210)			

SUGGESTIONS FOR STUDY: The *Grave* section which opens the first movement is one of deep solemnity, suggests an intensely serious mood, and when regarded in this spirit, provides a sharp contrast to the *Allegro molto* section which is of a more vigorous and dramatically bold character. The second movement, *Andante cantabile* is, as the marking indicates, leisurely paced, and of a lyrical nature. Think of longer phrases, a natural, flowing melodic line, moving in a calm and singing manner. The third movement is more gay, although the minor key suggests a certain melancholy carried over from the previous movements. The opening section carries a hint of defiance in its melodic statements, and delivers a marked contrast to the *tranquillo* section.

First Movement. The tremolo in measures 11-26 should receive the initial attention. Make certain the wrist is loose, and a balance is secured between the fingers, 5-1, 4-1. Practice slowly, listening for a steady action, and the difficulty of this task will soon diminish. When the vibrations feel comfortable enough, practice making the crescendo, and decrescendo in measures 15-17 in just the left hand. Pay close attention to outlining the lowest bass notes. The feeling of motion results from a continuously steady left hand, both in rhythm and in tone, not from a forced and hurried pace.

Grave. Keep the sixteenth-note in mind as the basis for a steady rhythmic background. In other words, count four sixteenth-notes to the first quarter-note, one-and-one-half sixteenth-notes to the next dotted-sixteenth, one-half a "count", or one-half a sixteenth to the thirty-second-note, and so on throughout the entire first section. This will have to be practiced mechanically at first, and slowly, until there is no doubt about the metrical placement of sixteenth-notes, thirty-second notes, and equally important, the rests.

Measures 50-51. Be sure the melodic line ends with the $B\flat$ of the left hand in measure 51, not the $A\sharp$ of the right hand in measure 50. Then start the next phrase with the second beat of measure 51 without delaying the rhythmic flow. Consequently, the following measures are to be played just as much in time, even though the melodic line jumps from bass to treble clefs, repeatedly. At first, use a metronome to check your steadiness. If the right hand is unable to master the rhythm accurately after much practice, then the entire *Allegro molto* is too fast. Take a more comfortable tempo.

Measures 57-58. Take each pralltriller with the three fingers, 2-4-3. The melodic line should remain even.

Measures 93-112. Notice the staccato marks, accents, and dashes. Be meticulous about executing each one correctly.

Measures 167-170. Block each group of eighth-note figures in the right hand in order to hear the harmonic equivalent of a lush melodic texture. Notice that this same coloristic effect can be brought out when executed in a legatissimo manner, against a dry and lightly vibrating bass. Be careful about

SONATE PATHETIQUE

using too much pedalling here. Just a touch of pedal on the first two eighth-notes of each group is sufficient. Or you may take no pedal at all. In either case, the smoothness of the psasage results from a true finger legato.

Measures 211 and 215. Observe the sudden piano with care. Try to sound these chords both times intently, producing neither a forced nor a shallow tone.

Measure 295. Immediately after the sound of the fortissimo chord ceases (measure 294), begin counting very strictly in sixteenth-notes at measure 295. The "sound" of the rests of the returning *Grave* are as eventful as the first c minor chord that opens the Sonata.

Second Movement. With the exeption of a few turns, the movement poses no special digital problem. The marking, *Adagio Cantabile*, is, however, an indication of another kind of problem—that of retaining a rhythmic and tonal control of both the individual and the combined voices. The tempo should be derived from measure 22. Express the triplet freely, not rigidly. The upper line must sound through as if it were one natural line. When this is felt, proceed to the very beginning taking the same tempo as in this measure. The metronome marking, an eighth-note equal to 60 is a good tempo.

Measure 8. Be sure each triplet takes up the full value of an eighth-note, and is evenly spaced.

Measure 9. Notice the addition of another voice in the bass register; also the melody is an octave higher. Don't make too little of this sudden heavier texture. Carry measure 11 out to its fullest expression.

Measure 20. The turn is executed right after the sixth sixteenth-note.

Measure 21. The turn is executed after the full value of the dotted eighth-note.

Measures 24, 27, 28. Treat the middle voice as it is phrased, simply, not affectedly.

Measure 25. Observe the ensuing rests. Silence is as much a part of the idea here as are the actual sounds of the notes.

Measures 37-38. A dialogue between the upper and lower voices occurs, first in a $\flat$ minor (measures 37-44), then in E major (measures 45-50). Strive for unity through a consistently lyric treatment of these passages.

Measures 51-65. Treat the triplets as accompaniment, letting the upper line come though cantabile and legato, yet piano.

Third Movement. Keep the tempo throughout at a brisk pace, but do not consider just the actual metronomic speed in doing this. Except for *sfz* and *ff* markings, the character is one of lightness and buoyancy. Pay special attention to the left hand in measure 3 so that the harmonies do not sound "lumpy," especially as the right hand is played detached.

Measure 5. The ornament is played on the beat. In other words, both F's sound together, and the entire gruppetto sounds before the second eighth-note of the left hand. (Preferably, to avoid parallel octaves, at the outset, the gruppetto should be executed slightly after the first beat, enhancing the A $\flat$ between the F and A $\flat$ of the left hand. However, if the student finds this too difficult, he may feel justified in doing it the aforementioned way. Both are considered correct.)

Measure 14. The B $\flat$ begins a phrase that ends with measure 17. Don't treat the last four chords as an after-thought.

Measure 33. There is no need to stifle the triplets. Regard them as a continuation of the melodic line.

Measure 79. Although we have now reached a highly contrasting section, don't make the mistake of slackening the tempo; it is marked *tranquillo* and *sostenuto*, yes, but this remains within the framework of the original tempo. Keep the underlying pulse the same as before, for in Beethoven's, as in many other composers works, it is this rhythmical consistency that lends unity to a composition.

Measure 185. Make no ritard, but go on to the first half of measure 188 without diminishing the forte.

Measure 202. Again, here is a bit of contrast. Make this sound as if Beethoven wanted to give the impression of starting another development section in a new key. The contrast is confirmed after a surprising rush of triplets, telling you it was, after all, just a "false alarm."

Sonate Pathétique

To Prince Carl von Lichnowsky

Revised and edited by Leopold Godowsky

L. van BEETHOVEN, Op. 13

Grave (♩ = 60 - 66)

The musical score is written for piano and consists of four systems of music. Each system contains a grand staff with a treble and bass clef. The key signature is D minor (three flats). The tempo is marked 'Grave' with a quarter note equal to 60-66 beats per minute. The score includes various dynamics such as *f* (forte), *p* (piano), *mf* (mezzo-forte), *sf* (sforzando), *dim.* (diminuendo), *cresc.* (crescendo), *ten.* (tension), *sostenuto*, and *espress.* (expressive). Fingerings are indicated by numbers 1-5 above or below notes. Articulation marks like slurs and accents are used throughout. The score is numbered 1 through 9 at the beginning of each system. The first system includes markings for *f*, *p*, *mf*, *f*, *p*, *mf*, *p*, *sf*, *p*, *sf*, and *p*. The second system includes *mf*, *cresc.*, *sf*, *dim.*, *p*, *espress.*, and *ff*. The third system includes *p*, *ff*, *p*, and *p*. The fourth system includes *cresc.*, *sf*, and *p*. The score ends with a double bar line and a repeat sign.

Allegro molto e con brio

This musical score is for the sixth movement of Beethoven's 'Sonate Pathétique'. It consists of six systems of piano and bass staves. The music is in 3/4 time and features a variety of dynamic markings and articulations. Fingerings are indicated by numbers 1-5 above or below notes. Measure numbers 137 through 172 are placed at the beginning of each system. The score includes a wide range of dynamics from *pp* to *f*, as well as crescendos, decrescendos, and accents. The tempo is marked 'Allegro molto e con brio'.

This block contains the first system of the musical score, spanning measures 210 to 244. It is written for piano in B-flat major (three flats) and 4/4 time. The score is divided into two systems of staves. The first system (measures 210-214) features a piano introduction with a crescendo leading to a forte section. The second system (measures 215-220) continues the piano introduction with a crescendo and a 'poco riten.' marking. The third system (measures 221-226) is marked 'a tempo' and includes a piano section followed by a forte section. The fourth system (measures 227-232) continues the piano section with a crescendo and a 'dim.' marking. The fifth system (measures 233-238) features a piano section with a 'mf' marking. The sixth system (measures 239-244) continues the piano section with a 'mf' marking. The score includes various musical notations such as dynamics (p, f, cresc., poco riten., a tempo, mf, dim.), articulation (accents, slurs), and fingerings (numbers 1-5). The bottom of the page features a decorative border with a repeating pattern of stylized leaves and flowers.

RONDO **Allegro** ($\text{♩} = 100-112$)

The musical score is written for piano and consists of 35 measures. It is in 3/4 time and B-flat major. The tempo is marked 'Allegro' with a metronome marking of 100-112 beats per minute. The score includes various musical notations such as dynamics (p, mf, f, sf, cresc.), articulation (accents, staccato), and fingerings. The piece is characterized by its rhythmic complexity and expressive range.

Measures 1-5: *p*, *1 espress.*, *p*, *mf*. Fingerings: 1 2 4, 3 4 2 3 1, 4 3 2 1 3 2 3 4, 2 3 4, 1 2 4.

Measures 6-11: *mf*, *p*, *fz*, *fz*, *p*. Fingerings: 5 4 2 1, 5 3 2 1, 5 4 2 1, 3 1 2 3, 4 3, 5 4 2 1, 5 4 2 1, 2 3 4, 4 3 4 2 3 4, 1 2 1, 1 2 1.

Measures 12-17: *mfz*, *f*, *più f*. Fingerings: 1 2 1, 2 1 4 3 2 1 2, 3 2 1 4 3 2 1 2, 2 1 4 3 2 1 2, 1 2 1, 2 1 4 3 2 1 2, 1 2 1, 1 2 1.
