GUILMANT

ORGAN ALBUM

3 VOLUMES

15 Compositions in Each Volume

EDITED BY

DR. WILLIAM C. CARL

Each Vol. n. 1.50

For years the late Alexandre Guilmant, most eminent of French organists, had associated with him his American pupil, William C. Carl, director of the Guilmant Organ School in New York City, of which Mr. Guilmant was the Honorary President. Dr. Carl spent some time each year with the Master, and became fully imbued with the spirit and ideas for which he is so well known and admired. It is therefore most fitting that he should have been chosen to edit and adapt for modern organs these selections from Guilmant's works.

Three volumes, each to contain fifteen pieces, the most characteristic and best liked, have been edited by Dr. Carl. The edition has been carefully prepared, with the registration and pedal markings clearly indicated, besides containing an excellent portrait of Guilmant. A large number of the pieces are not known in this country and will therefore readily serve as novelties.

Each number is suitable for the Church Service, as Prelude, Offertory, or Postlude. The first volume has been adapted primarily for those requiring Voluntaries of moderate difficulty, or demanding but little preparation, a most important item for the busy organist.

The other volumes have been arranged on the same lines, including several of the compositions that have made the name of Guilmant famous, in Europe as well as in America.
